

***Drinkstone Gardening Club
Annual Report to Parish Council 2016 - 2017***

We have had a well-supported year in the Drinkstone Gardening Club. We are now in our fourth year with a membership of 51 - very impressive for such a small village.

During our year from May 2016, we had an interesting variety of speaker topics, ranging from hostas, vegetables, soft fruit, clematis, perfumed plants and fuchsias. Our trips out last year included The Place for Plants in East Bergholt and Helmingham Hall.. We rounded off last year's programme with a magical trip to Christine and Michael Lambert's garden at Drinkstone Park. This year, we are looking forward to visiting Ulting Wick gardens in Essex and completing this year's programme with a trip to the Cambridge Botanic Gardens.

We hope we have been able to offer something for everyone and look forward to presenting an interesting and informative programme for next year.
